The personel of the famous Grayson Daredevils, from Va., is thus described by a correspondent of the New York Day Book :

The "Grayson Daredevils," a company of mountaineers, all six feet high and terrible marksmen, came in on Friday. These hardy and reckless backwoodsmen are picturesquely attired in blue shirts, red caps and black pants. Each man carries his own rifle and bowie knife both of which he has been used to since boyhood. They are the same creatures I wrote to you about not long ago, who, while at rifle pnactice, shoot at the mark when running. They look with undisguised contempt on the individual who is obliged to stand still in order to bore the bull's eve.

I must acknowled that I rise before you this morning, to address you somewhat differently from my usual course. My business has been for the last thirty years, to keep myself aloof as far as consistent with my profession, and the interests I felt in common with loval subjects of our government, from the strife of political parties contest for office or political supremacy in the gift of the people. Whilst I have felt a deep interest for the peace and prosperity of our country, and the perpetuity of our government, and have exercised

the common right of a freeman in the elective franchise, yet, I have felt that my profession and calling had a different work to perform to the statesman or politician, and when I have awarded to him the high trust committed to his care, I have endeavored to apply myself to the legitimate and appropriate labors of my profession, never meddling, as a public servant, in an electioneering contest to control and retiring to my proper sphere. And would to God, I could have, consistent with my obligations and the responsibilities resting upon me, been relieved from the fearful duty I now feel pressing upon me. My voice has always been for peace, I have endeavored to practice and preach it all through my past life, and God knows there is nothing that I now more carnestly desire, than that we as a people, should have an honorable peace. But a is neither practical or safe, when sume to invade our sacred rights,

Our cause is just and right; be governed by a higher morality an inherent right to freedom, indeand purer christianity. Can it be possible, then, that we, as a christian nation, and a christian people, living under the meridian of gospel light and truth, in the middle of and murder each other like savage barbarians, cruel tyrants, and ungodly infidels?
